Professional Summary

Full-stack developer proficient in React.js, Next.js, TypeScript, Node.js, and Spring Boot. Delivered client-focused software solutions with measurable performance improvements. Strong focus on software verification, quality assurance, troubleshooting, and debugging.

Education

ABES Institute of Technology, Ghaziabad
Bachelor of Technology, Computer Science Engineering
CGPA: 7.00

Sep. 2022 – July. 2026

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python, SQL, HTML, CSS.
- **Frameworks/Libraries:** Spring Boot, React.js, Node.js, Next.js, REST APIs, Apache Kafka, JDBC, Microservices, Express.js, Prisma ORM, Socket.io, JWT Authentication, Tailwind CSS, Spring MVC, Spring Data JPA, MVC Architecture.
- **Databases:** MySQL, PostgreSQL, MongoDB.
- **Tools & Platforms:** Git, GitHub, Docker, Maven, Postman, VS Code.
- **Concepts:** Object-Oriented Programming (OOPS), Data Structures & Algorithms (DSA), DBMS, SDLC, Client-Server Architecture, Computer Networks, Operating Systems.

Experience

Codec Technologies Pvt. Ltd.

July 2025 – Oct 2025

Java Developer Intern

- Developed and maintained **Java-based web applications** using **Spring Boot**, improving backend performance and reducing API response time by **~20%** through query optimization and caching.
- Designed and implemented **RESTful APIs** for seamless frontend-backend communication serving **50+ endpoints**; collaborated with a 4-member team using **Git version control**, reducing integration conflicts by 30%.
- Debugged and resolved **15+ production defects**, conducting software verification and quality assurance checks that improved application stability and reduced error rate by **~25%**.

Projects

MediTrack – AI Powered Healthcare Management Platform | [GitHub](#) | [Live](#)

- **Tech Stack:** Next.js, React.js, TypeScript, PostgreSQL, Prisma ORM, Socket.io, Tailwind CSS, Groq AI, JWT Authentication, Cloud Computing, REST APIs.
- Developed and deployed a full-stack AI-powered healthcare platform with separate dashboards for patients, doctors, and admins, supporting **150+ concurrent users** with role-based access control.
- Implemented secure authentication, real-time appointment booking, AI consultation, medical report verification, and persistent healthcare record management.
- Built **20+ scalable REST APIs** and transaction-safe booking workflows using Prisma ORM and PostgreSQL, achieving **<200ms average response time** with real-time synchronization using Socket.io.
- Designed responsive modern UI/UX and optimized application architecture for scalability, achieving **30% faster page load** compared to initial prototype.

FlowTask Team Task Manager | [GitHub](#) | [Live](#)

- **Tech Stack:** Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, JWT Authentication, REST APIs, Railway, Vercel, Git, GitHub, Postman.
- Developed a full-stack task management platform enabling project collaboration for **100+ users**, supporting task assignment, workflow tracking, and priority management across **50+ projects**.
- Built secure backend services using **Node.js, Express.js, MongoDB, and JWT Authentication**, handling **500+ API requests/day** for user, project, and task handling with **99% uptime**.
- Designed responsive frontend using **HTML, CSS, and JavaScript** with features including task status tracking, due dates, and project organization.
- Deployed frontend on **Vercel** and backend on **Railway**, integrating cloud-hosted MongoDB database and reduced deployment time by **50%** using CI/CD pipeline configuration.

Certifications & Achievements

- Java Programming – Softpro
- Workshop: Full Stack Development – Softpro
- Web Development & Design Training – ABESIT
- LeetCode: Solved **300+** DSA problems demonstrating proficiency in algorithms, data structures, and problem-solving.
